SCHOOLMATES' BEATINGS END LIFE OF BOY

Parents Testify to Brutality of Lads—Kicked in Spine

WELLAND, Ont., Jan. 11.—Beatings administered by young schoolmates caused the death of Glenn E. Sebourn, aged seven, his parents declared at an inquest into his death here yesterday.

The jury found no one responsible but in the verdict sought to impose on teachers the responsibility of controlling their pupils immediately after school hours. They found the boy died from an abscess which resulted from blood poisoning.

Sen of Principal James Sebourn of Welland South school, Glenn was attacked, his father said, on Dec. 5, apparently by boys on the grounds of Manchester Park school. Mr. Sebourn testified also found his son lying on the ground with a six-year-old boy kicking him in the spine. This youngster was at the time but was not taken to hospital.

The Sebourn child was taken home and his injury apparently healed. Later, however, he complained of a leg pain and a week later, on Dec. 24, in hospital.

Probe Complaints Made By Parents Against Teachers

Asking whether complaints were received from parents regarding the manner in which school teachers, particularly in the high schools, treated their pupils, the city school board, trustee S. A. G. Barnes caused some surprise at the meeting of the Edmonton Public School board Tuesday evening.

"Do you ever hear of complaints of teachers, when they are 'letting to go'?" he asked the superintendent.

Superintendent G. A. McKee replied that he never had.

"Well, I have that in many cases, particularly in the high schools, teachers talk to children in a manner which they would not use if they were not adults and the pupils not children."

The superintendent, following a notice of the board, and he would require the matter.

Mr. Barnes said he felt that such a large report of complaints would be a good thing, and he would like to see the board discipline.

SCHOOL BOARD GIVEN ADVICE 'SPORTS TOPIC'

Board Only Liable For Agents Breach of Duty Towards Participants

Advice regarding the liability of the Edmonton Public School board or any of its officials or instructors for accidents to students participating in sports at school, by the board's solicitors, state that the board was only liable for the agents' breach of duty towards participants in sports.

This matter arose out of a request by C. O. Hicks, principal of the Victoria High School, for advice, particularly in the case of sports in which participation there was inherent liability.

The letter from H. H. Purvis, K.C., maintaining an opinion on the matter, was received by the board at its meeting Tuesday evening and was read.

The solicitor pointed out that it was almost impossible to deal in a general way with any particular accident, as each accident must be judged on the facts and circumstances surrounding its happening.

PROVIDE SAFE EQUIPMENT
Speaking of the board's duty in authorizing or permitting sports, the solicitor's opinion was that the board was not in a dangerous position, that proper and reasonably safe equipment is provided for sports and that efficient supervision of the sports is maintained.

Dealing with liability in connection with the defective condition of the sports, the board was liable for accidents happening by reason of the defective condition of the sports, if equipment supplied by the board was defective, and if the board knew of such defect or ought to have known of it.

The board would not be liable for accidents happening by reason of the defective condition of the sports, if the board knew of such defect or ought to have known of it.

CAPITOL
Baldwins, feared by the rich and loved by the poor for whom he roams, plans to hold up a state ball and forthwith sets out with his band of men. All goes well, until the robber chief's roving eye falls on the lovely Angela, the Governor's daughter, and he risks the life.

CITY TO TAKE STEPS TO STOP ODOR NOISANCE

Officials Feel Court Decision on Sewage Plant Favorable to City

The decision handed down by Mr. Justice Ewing in the case brought against the city in connection with the operation of No. 2 sewage disposal plant is considered to be a favorable one, in the main, by city officials.

Civic officials are giving immediate consideration to the question of removing the nuisance which, it is alleged, has been caused by dumping raw waste into the sewer by Citizens Ltd.

It was held by the learned trial judge that the defendant was compelled to maintain the sewage disposal plant by provisions of the public health act and that the plant is not erected on leased water.

An extract from the judge's decision is as follows: "The defendant is not liable for the nuisance resulting from the mere fact that defendant has erected and operated the plant in question."

The judge further held that any deterioration in property value in the district in question as alleged by witnesses was purely temporary.

WHEAT PRICES IDLE ALONG TO CLOSE LOWER

WINNIPEG, Jan. 11.—Wheat closed along in a fairly speculative market today to emerge with net losses of 1/2 cent. Following the lead of markets to the south wheat early traded weak and it is to be expected that when interest returned, export trade would be at a premium.

At the close May held at 47 1/2; July at 46 1/2; and October at 45 1/2. It was an erratic day with the market, local in character and largely following the lead of Chicago. Liverpool gave some encouragement at the start by reflecting fair sales but the higher levels were not held.

The feature of trading was the ability of the market to spring back from the low points. No export trade to speak of entered into the picture. Futures look for a general improvement in the foreign demand if the market holds the ground.

Cash wheat and coarse grains were practically unchanged.

STOCK MARKET CONTINUES TO WORK UPWARD

By CLAUDE A. JAGGER
Associate Staff Financial Editor
NEW YORK, Jan. 11.—Earlier gains were largely wiped out in a flurry of selling which swept the stock market in the late dealings today, although some points continued to hold. The market advanced, close and, however, ended with a loss. The New York Central lost a substantial fraction. Support was found for the market by the fact that the market was not fractionally. Pennsylvania, Baltimore & Ohio and Santa Fe were steady. Transcontinental was up 1/2 point. Shares closing time was irregular.

NEW YORK, Jan. 11.—The stock market continued to work upward today, reaching its highest level since December.

Most important more popular than utilities and industrials, although motor stocks moved forward strongly.

Gains of a point or so were made by P. D. G. Goodyear, Santa Fe, Southern Pacific, and American and Foreign Power. General Motors and Nash added sizeable fractions to their price, while Chrysler gained slightly. Fractional gains also were made by Lachance, Pennsylvania, United Pacific, United Copper, U.S. Steel, U.S. Rubber, and U.S. Chemical. Radio, American Telephone and Cable, Harvester and Westinghouse, Electric, were slightly reactionary while Latham Corporation and U.S. Products, revealed sharp gains.

Some quarterly dividends were declared by Westworth and Continental. Canadian Pacific Electric announced a dividend of 10¢ per share. The Corporation stock on the basis of one share of 10¢ stock for every one share of both Westinghouse preferred and common. Trade news for every routine picture was scanty. Foreign exchange rates were steady. The dollar was at 24 1/2 cents a pound against \$2 to 2 1/2 cents on Tuesday.

DUNCAN, B.C. Jan. 11.—Mary Ann Toochley, aged eighty-three, a woman of the Comoxian band of Indians, was drowned in the Comoxian river.

With her husband, Toochley, who is said to be 100 years old, she went in a canoe to gather driftwood in the river, which after the rains is a rapid, ferocious.

JOBLESS FATHER ADMITS MURDER

Huge Gold Nugget Is Found In B. C.

Vancouver, Jan. 11.—A sample from the latest strike of gold in the pioneer mine in the Bridge River district, rather larger than a man's head, 40 per cent actual gold and valued at \$7,000, has been taken out to New York.

Other samples run so large but of similar richness have been brought from the mine to Vancouver.

About \$12,000 has been extracted from the pocket, it is stated. The ore is not put through the mill, but is separately melted down.

The pocket is between the seventh and eighth levels—but how far it continues between them can only be told when it is all blasted out.

It took 70 hours to complete the Capital in Washington, D.C.

PRINCE ALBERT, Sask. Jan. 11.—Eight hundred jobless men, quartered in relief camps in Prince Albert National Park were marooned from the outside world last night by huge snow drifts which blocked the 70-mile highway leading from Prince Albert.
